Low-Power Television and Translator Digital-to-Analog Conversion Program

AGENCY: National Telecommunications and Information Administration (NTIA), Department of Commerce.

ACTION: Initial announcement—notice of availability of funds.

SUMMARY: The National Telecommunications and Information Administration (NTIA) has established a program through which each eligible low-power television broadcast station, Class A television station, television translator station, or television booster station, may receive compensation toward the cost of the purchase of a digital-to-analog conversion device that enables it to convert the incoming digital signal of its corresponding full-power television station to analog format for transmission on the low-power television station's analog channel. DATES: Applications for the Low-Power Digital Conversion Program may be submitted during the period October 29, 2007–February 17, 2009. Applications requesting Priority compensation may be submitted during the three-month period October 29, 2007–January 31, 2008. Non-priority applications may be submitted beginning February 1, 2008.

FOR FURTHER INFORMATION CONTACT: NTIA Program Officers are prepared to give technical assistance to potential applicants within available resources.
